

Keypoint Interactive Standard Edition Software

For **reply**®
 Wireless Response Systems

Fleetwood Software Specification Sheet

Software Name: Keypoint Interactive Standard Edition

Software Features: Keypoint Interactive Standard Edition includes audience polling features that are common to most response keypads including:

- Inserting interactive question slides
- Graphing response data with chart slides
- Individually assign wireless keypads using rosters
- Compare results of multiple questions on one graph for pre/post testing
- Real-time updating graph objects
- Animated countdown timers
- Automatically sync music to countdown timers for polling
- Participants can be grouped into teams for competition and team building exercises
- Team scores can be displayed as points or team percent correct graphs
- Cumulative score graphs
- Create participant groups to categorize your data
- Group assignment questions allow the audience to classify themselves
- Real-time data slicing to redistribute graphs based on participant groups
- Display prioritized lists created from audience feedback
- Insert generic questions on-the-fly from the right-click menu in slide show
- Participant weighting for shareholder meetings and delegate voting
- Display top scoring individuals by points or percent correct
- Generate standard reports in *Word, *Excel 2007, and *PowerPoint 2007
- Import and export student roster files created in Excel 2007

Reply® Systems supporting this audience response application:			
			
Reply® WorldWide	Reply® Mini	Reply® Plus	Reply® Mini+

Distinguishing Elements: Keypoint Interactive has been designed from the ground up to seamlessly integrate with Microsoft PowerPoint 2007. The simple and intuitive interface design makes adding audience response interactivity fast and easy. Wherever possible, Keypoint allows experienced PowerPoint users complete creative freedom over all of the elements. Comparing multiple questions on a single graph can be done using any standard PowerPoint graph. Keypoint Interactive Standard Edition supports up to 250 Reply Worldwide/Mini keypads or 500 Reply /PlusMini+ keypads.

Warranty: Innovision warrants that (a) the SOFTWARE PRODUCT will perform substantially in accordance with the accompanying written materials for a period of ninety (90) days from the date of receipt, and (b) any hardware accompanying the SOFTWARE PRODUCT will be covered by the manufacturer's standard warranty. Innovision Incorporated does not warrant or assume responsibility for the accuracy or completeness of any information, text, graphics, links, or other items contained within the SOFTWARE PRODUCT. Innovision Incorporated makes no warranties respecting any harm that may be caused by the transmission of a computer virus, worm, time bomb, logic bomb, or other such computer program. Innovision Incorporated further expressly disclaims any warranty or representation to Authorized Users or to any third party.

Operating System Compatibility: Keypoint Interactive is a plug-in for *Microsoft Office 2007 on *Windows XP, Windows Vista (ultimate 32 & 64 bit) and is a Windows 7 Release Candidate.

Types of Hardware Supported: Fleetwood Reply Worldwide, Fleetwood Plus, Fleetwood Reply Mini and Fleetwood Reply Mini+.

Support:

- Installation: Limited support is available to resolve issues during the initial installation. This may include telephone and online remote assistance support.
- Post installation: One-year Online Support and Upgrade package included.

License: Purchasers are granted the right to install copies of the Keypoint Interactive on any or all of their computers(s). Keypoint Interactive operates in 'demo mode' until the user enters their registration key. Once the key is entered, polling functions are available simply by attaching the base with the correct serial number.
